WHY FIBREGLASS POOLS ?

QUICK AS A SPLASH

Arrives as ready to install within 7 day's compare to other kind of pool. It is much faster and durable.

LOOKING GOOD

Pools features a super soft high gloss surface in a fantastic range of vibrant shimmer and royal colours. This ultra-hard wearing surface is non-porous, stain and chemical resistant and of course is so easy to maintain and clean.

STRONG & DURABLE

Arrdev Pools fiberglass pool shells exceed all Indian and world-wide standard for thickness. This means that your pool is strong and durable, yet being made of fibreglass, can flex to accommodate at most earth movement.

POOL RANGE

Development and expansion of our modern shapes and sizes is constant so that our range of pools is second to none. With an 12000 sqm facility dedicated to new pool development ensures that you will have a choice of the very latest designs and features to suit your lifestyle.

COLOUR RANGE

Boasting six shimmer colours combined with three royal colours you can be assured we have a colour to suit your lifestyle decore. Arrdev Pools pride themselves in only using a marine grade gelcoat (ISO NPG.), ensuring the surface in the contact with pool water is the very best.

WARRANTY : Arrdev Pools offer a 12 year structural warranty with their pool shells. There is also an internal warranty which meets SPA Guidelines and INDIAN Standards.

READYMADE HOT TUB / SPA POOLS

SPA POOLS:

SPA can be worked as an expansion to your pool or they can go about as remain solitary units. Tanning Ledges can be utilized in your terrace configuration to make fun sprinkle territories or additional areas to relax and unwind, as water-accommodating yard furniture can be put inside the edge. Spas and Tanning Ledges can be introduced flush with your pool or raised so they overflow into the pool. Models that have worked in overflows function admirably when you need to fuse a spa or edge raised and overflowing into the pool, while non-overflow models function admirably for remain solitary or isolated waterways. Models that have a worked in overflow will utilize normal water with the pool; non-overflow models can utilize either basic water or separate water, which enables the spa or edge to be warmed at an unexpected temperature in comparison to the pool.

12 x6x3 ft (3000 litres)

D-shaped spa for sitting for 8 no's of persons at one time.

This D-shaped spa with steps and seats.

3 ft deep with 1.5 ft seat with reclined back.

It enhance beauty of your home.

1 BEAN SHAPED SWIMMING POOLS - CURVY DESIGN

Functional Design

Another reason kidney/Bean pools have endured is that the design simply works. The bend in a kidney/bean shaped pool serves as a clear division between two ends. However, because the curve is slight, a kidney pool still allows for lap swimming, diving, and other activities which are possible in any other design of swimming pool.

As mentioned, the indentation or "bump" on the pool deck is an obvious place to put landscaping or other decorative touches. On the practical side, it can also be a place for seating, a pool ladder, an anchored umbrella, or even an inground spa. Whatever you put in this spot will be easily accessible.

Size of Pool : 24ft x 11ft x 4ft (25000 litres)

Steps : 3 steps

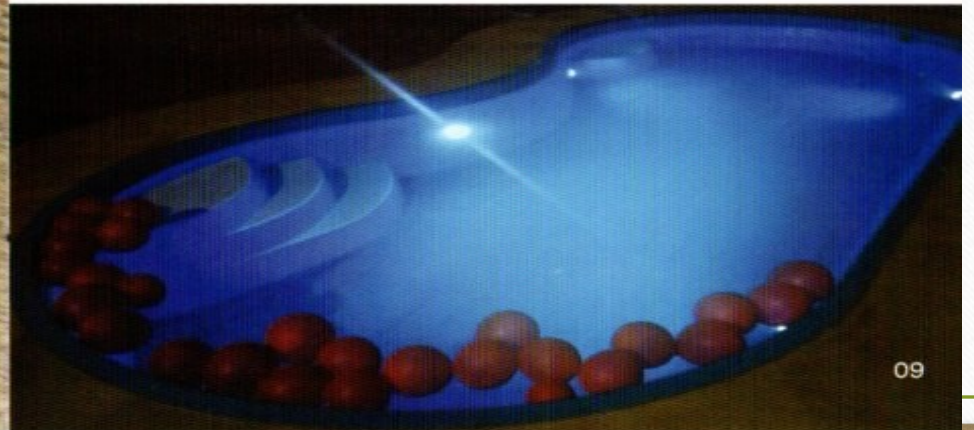

Sitting: 1 seat for 3 persons

Filter: Cartridge filter

Lights: LED lights

Over flow: Skimmer

Endless system (optional Step Bar, Jacuzzi, Heater, Counter Current

2021/6/27 11:34

6. PLUNGE SWIMMING POOLS

Plunge pools are small, cold-water pools that have been used for thousands of years in medicine and were also popular with the Ancient Romans. Many swimmers and athletes like to plunge into a pool of cold water after a heated workout or sauna or spa session, believing it has therapeutic benefits.

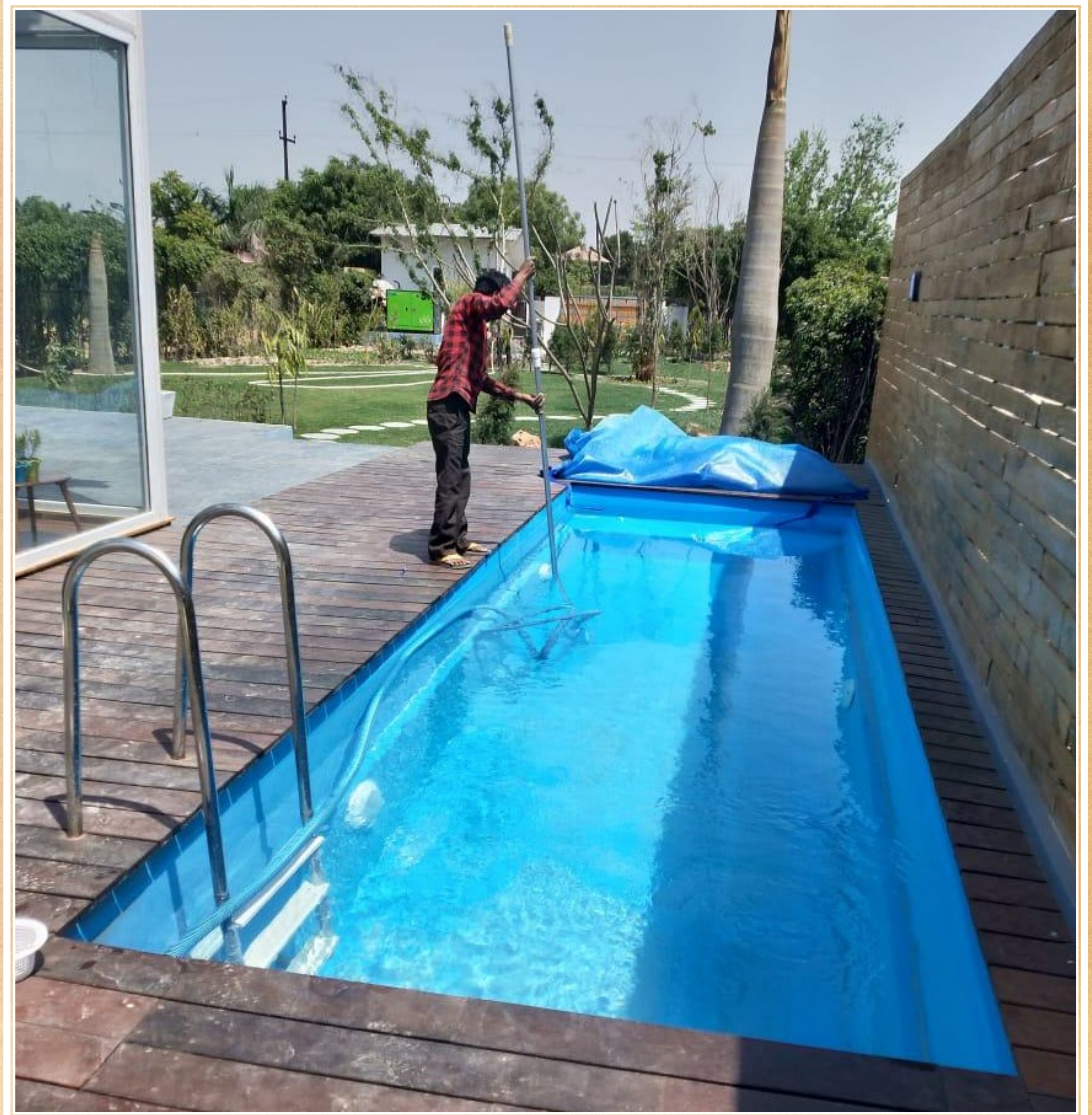

Plunge pools can be separate or attached to a larger in-ground pool.

- These are rectangular swimming pools. No steps or any design inside and entire pool is for swimming.
- The depth of these pools are 1350mm /4.5 feet.
- These are very good for small places.
- The counter current machine make these as endless swimming pools.

| | |
|-----------------|--------------------------------------|
| Size of pools : | 12.5 x 7.5 x 4.5 feet (9000 litres) |
| | 17.5 x 7.5 x 4.5 feet (13000 litres) |
| | 22.5 x 7.5 x 4.5 feet (17000 litres) |

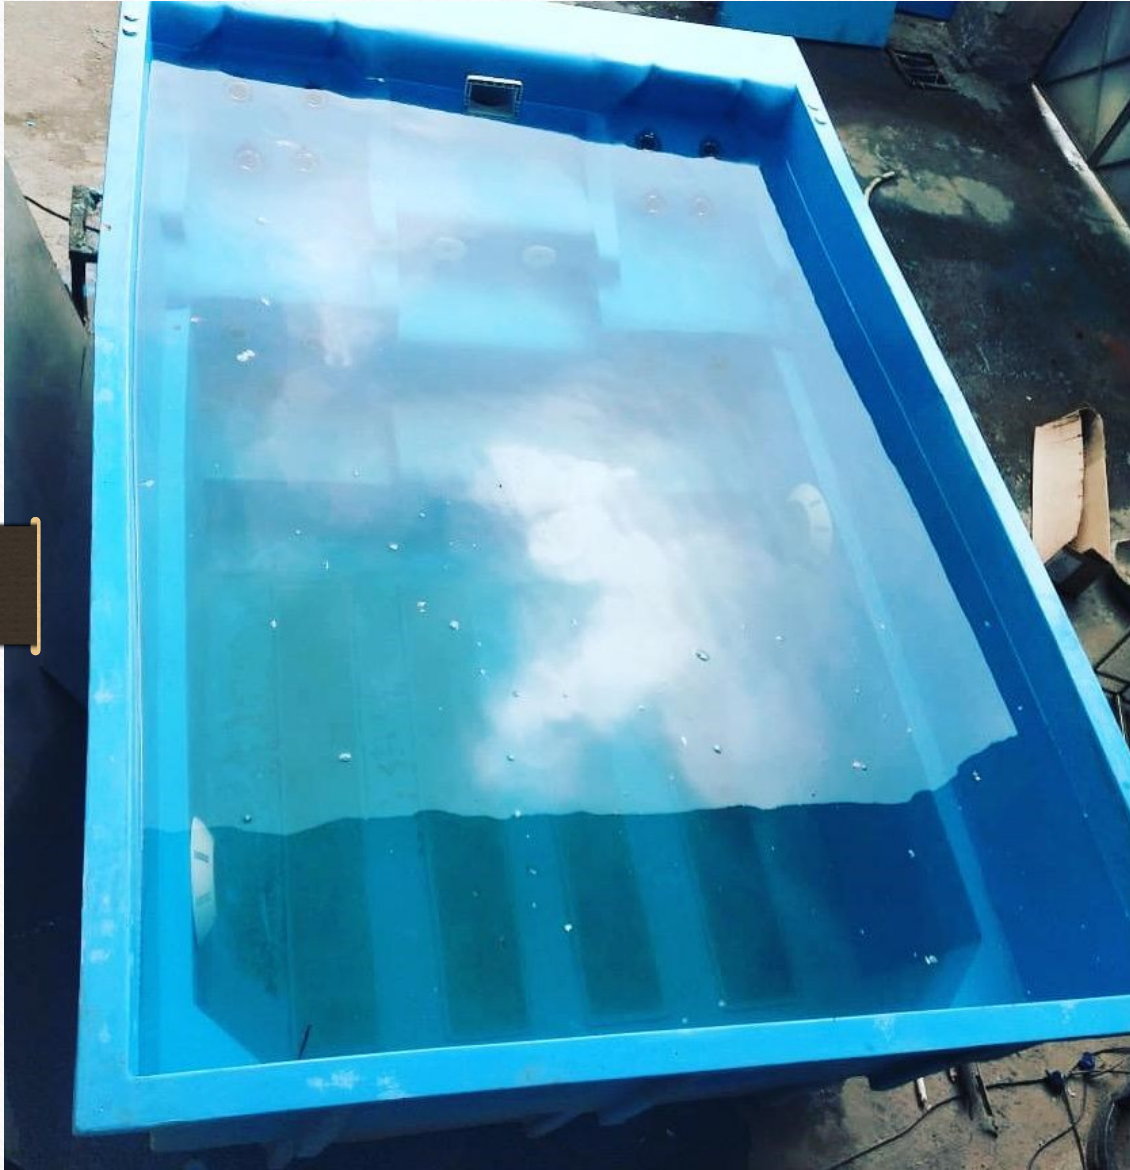

7. STEPWELL SWIMMING POOL

- Steps well pool is having steps into pool with small size of pool.
- 3 x 2 x 1.2 meter / 9.6x6.6x4 feet (5000 litres).
- These can be placed any where and self standing pools.
- Filter and lights are provided. Wall panels can be erected.
- In this size aquatic therapy pools are most popular because of its depth all aqua bike, aqua tread mill and aqua steppers can be placed. The heating / chilling is economical because of their small size and suitable shapes.

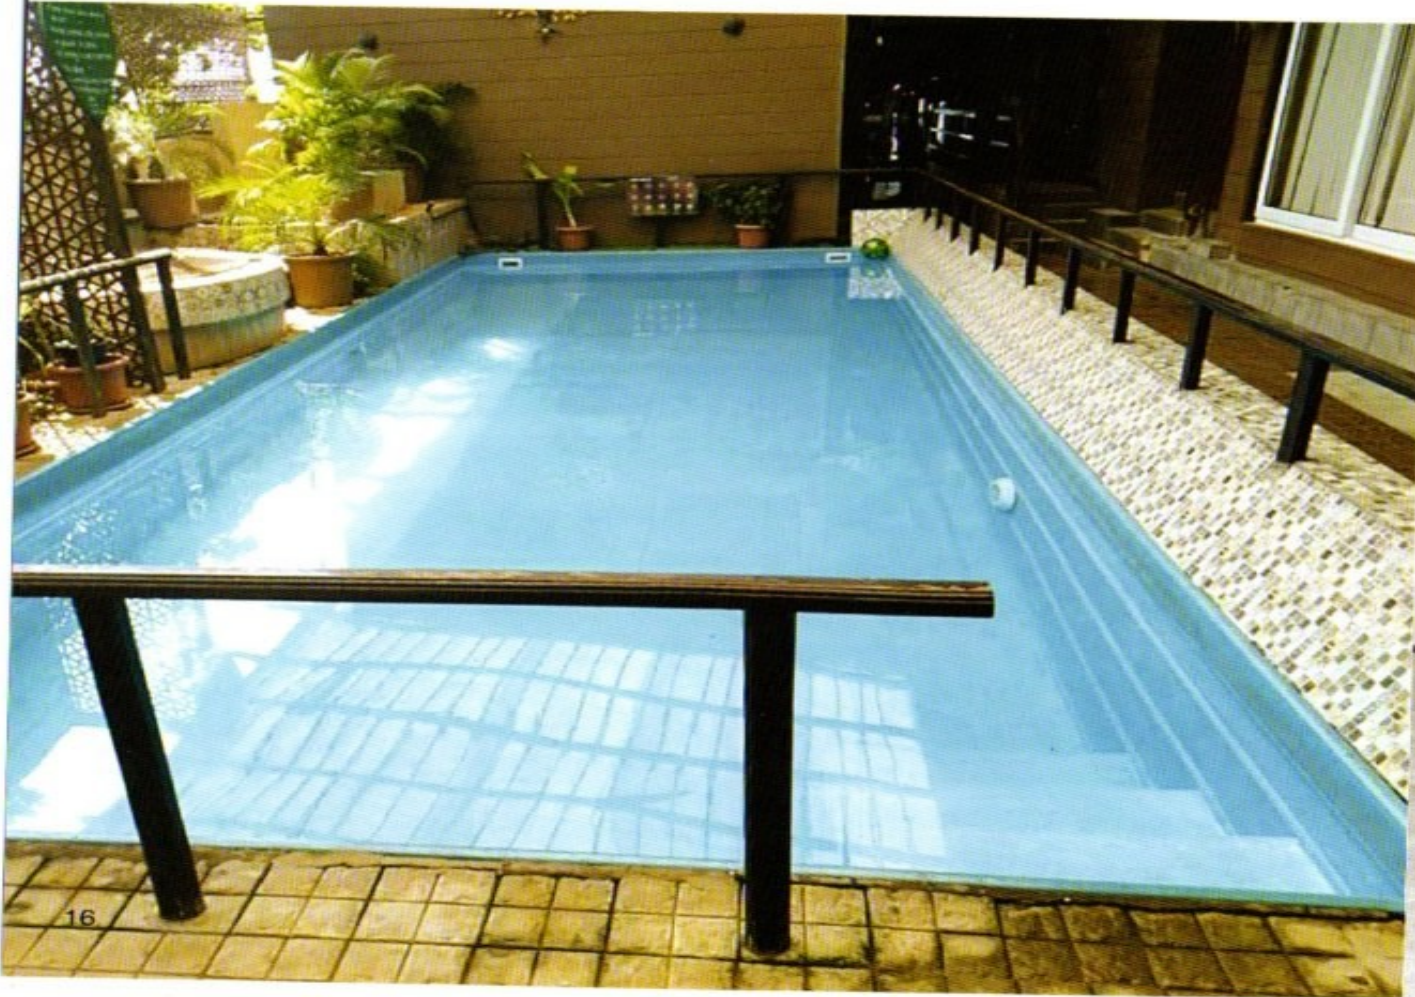

8. RECTANGULAR SWIMMING POOLS

Most of the early residential swimming pools were created in the classic rectangular form, which was aesthetically pleasing and also practical. As a source of exercise, the long, straight lines of a rectangular pool made sense for pool owners who wanted to swim laps. Rectangular pools have also traditionally been rectilinear or rectangular in shape.

- As name suggest that the rectangular pools are having long length than width.
- Three inbuilt steps are available in every swimming pool.
- The depth of all pools are same and width or length can be altered as per customer requirement.

Size of standard pools:

19.5 x 9.5 x 4 feet (16000 litres)

25 x 9.5 x 4 feet (22000 litres)

31 x 9.5 x 4 feet (28000 litres)

Width customized pools:

19.5 x 12 x 4 feet (22000 litres)

25 X 12 x 4 feet (28000 litres)

31 x 12 x 4 feet (36000 litres)

Water filtration plant with 25 micron filter for best quality water.

Endless counter current swimming system.
