PREFAB LINER SWIMMING POOL

ANY SIZE ANY SHAPE ANY WHERE SWIMMING POOLS

PREFABRICATED SWIMMING POOL - LINER POOL

With more than two decades of experience, we are into the manufacturing of pool. We are installing pool with Swimming Pool Wall Panels & Brackets, Swimming Pool Membrane or Swimming Pool Liner, etc. We manufactured liner pool, Pools for School / Competition, Hotels, Commercial Swimming Pools, Society Swimming Pools, Farmhouse Residents, etc. The making of this pool is easy with three simple steps: designing, building of panel wall, liner pasting, and fill the water, we ensure quality construction. We worked with dealers and suppliers also.

Prefabricated swimming pool: -

Technology means simplify process & operations. In swimming pool the construction has its own complications implications & you need a lot of consultancy & agencies, Even pool builder also has many agencies & their job is to just get together.

There is no technology or innovation involved in civil constructed swimming pools.

Arrdevpools focused to make pools simple & easy. That has come with 25 year of continuous R&D to make swimming pools better in every year.

Prefabricated pools as name suggested that it fabricated in factory & assembled at sites or homes.

Prefabricated pool can be in any shape & size.

These can be in ground or above ground, indoor & outdoor.

These can be of any size & depth as needed.

A very simple method of making swimming pools.

- We first make the floor of swimming pool which is generally made by client or any local contractor.
- Floor can be made in PCC or RCC as per soil condition. The roof top pools are made on existing RCC roof if made as per load of water.
- The other option of roof top pool is to strength the roof with prefabricated steel platform / RCC. Roof should be made according to the maximum bearing of water weight.
- The other option of roof top is to give strength to the roof with

prefabricated steel platform / RCC.

- The 2ft extra PCC/RCC is laid from the size of the pool decided after this the panels are erected all around the pool wall as per shape & size of pool.
- Then steel bracket is installed all around the wall panels..
- The drain & in- Let kit and fixed.
- The 1.5 m liner is pasted inside of the pool walls & floor.
- Liner has 4 different layer & many internal designs. We normally use antiskid pool liner which is popular in glass mosaic design or pebble design to give natural look. Plain colors are also available.
- Once this is done all pipe and accessories are fixed like lights on wall/ ladder inside pool& pipe less water filter machine appropriate place.
- After this pool is tested with filling water and hand over to client. The Deck & planters or any landscape can be done.

SWIMMING POOL WALL PANELS & BRACKETS :

A mass of solidarity

The wall panels, not only standing itself but giving strength to the structure vertical ribs are incorporated at the back of each wall panel.

POOL MEMBRANE / POOL LINER

Pool LINER

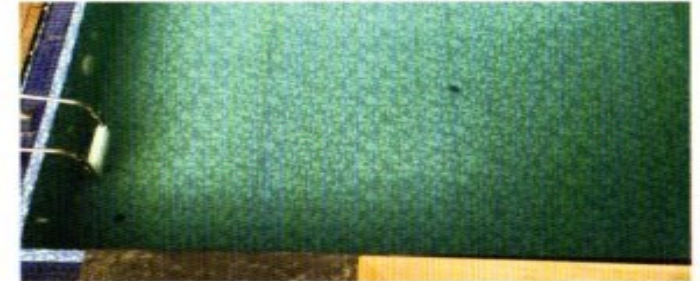

The ideal arrangement ...

Our pool films are utilized as premium fortified pool layers in open pools, resort pool, indoor pools and restrictive private pools.

They are unmistakably utilized as a covering material for both fixed indoor and outside pool establishments. It very well may be introduced in any size or shape pool. The layer is developed of just the best material, guaranteeing tear confirmation sturdiness that will give long periods of pleasure and durable execution. The film is impervious to enduring and cold temperatures. Likewise, the material has an enemy of microbial completion, which makes it impervious to parasites and microscopic organisms.

Our pool layers are tried as per the unbending rules of the pond conform to all concoction and physical necessities.

Our pool layers are appropriate for both new developments just as the remodel of existing swimming pools. Regardless of whether the pool is built with gunite, metal, plastic or wood, our pool layers can be introduced on any strong surface. The films are laid on a defensive, isolating downy layer, which is then welded together so as to make a consistent, 100% airtight surface.

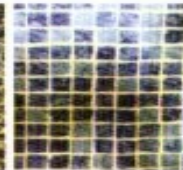

Steps of prefabricated pool making:

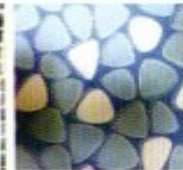

Liner Specification: 1.5 mm thick (+- 3%),
 Width: 1.5m, 1.8m
 Tensile: 350 lbs(warp), 250 lbs (fill)
 Tear Strength: warp 85 fill - 8lps
 Temp Resistance: Low (-) 22°F, High +158°F,
 UV-Resistance, Anti mildew, Cadmium free

Semi olympic pool 12.5 x 2.5 x 1.35 meter.

Size of pool:

Olympic size swimming pool: 25m x 50m x 1.8m (depth)

Training pools can be as follows:-

5mx10mx1.2m

6mx15mx1.2m

10mx15mx1.2m

COMMERICAL SWIMMING POOL IN LINER

PRE-FABRICATED SWIMMING POOL - HOTELS, CLUBS, HOME

Hotels swimming pools: The roof top pool at hotels are easy to install, the weight of panel is negligible in compare of RCC structure. In-ground, semi ground or above ground pool can be made with prefabricated technology.

Any designs are possible in these pools.

Architecturally hotels swimming pools are important in hotels, so various level & design with planter & gazibo's like structures can be added with prefabricated swiminming pool. Water fall & fountains can be added in these pools.

In few hotel chains we are giving them designs for swimming pools overflow prefabricated pools are the perfect choice to meet the standards of hotel. We make over flow channel around or any wall of swimming pool. The balancing tank are also be made in prefab structure. Filters can be conventional sand or pipeless filter with cartedge filters.

Club Swimming Pools: These pools are easy and fast in making process builder take much time in making. To avoid this lengthy process, we offer the builder to have prefabricated swimming pool as these are good and durables, than civil pool.

Since we are using pipe less filter the running cost of a pool is very less. Duration of construction is low and with mock over flow channel water remain very hygienic as the water wasted in spiting and not come back in pools.

Home Swimming Pools:

Consider the possibility that you could relax in the sun on your own special swan glide at whatever point you felt like it. Or then again cannonball into the profound end following an especially taxing day at the workplace? Having a pool in your own terrace is in an interest in your way of life, regardless of whether it's laps you're after or an at-home gathering setting. Be that as it may, before you even start the establishment procedure, you'll need to become more acquainted with all the various kinds of pools out there. From shape to material and encompassing deck zone, become familiar with about the various kinds of in-ground pools here.

For farm house in remote or any other area these pools are easy to use and maintain. Where the usage is not regular and maintenance staff is not available. The prefabricated pools are best in terms of costing and maintenance.
